

Aditi Pandey

Phone: +91 95553 83986 — Email: aditineerajpandey@gmail.com — LinkedIn — GitHub

PROFILE SUMMARY

Cybersecurity professional with expertise in cloud security (AWS, Azure), threat analysis, and security automation. Experienced in SIEM integration, vulnerability assessment, and DevSecOps practices with strong focus on security engineering and risk assessment.

EDUCATION

B.Tech in Computer Science Engineering

Vellore Institute of Technology

Specialisation in Cyber Security and Digital Forensics

2022 – 2026

CGPA: 8.61/10

SKILLS

Cloud Security: AWS, Azure, GCP, Microsoft Sentinel, Identity & Access Management

Security Frameworks: NIST, MITRE ATT&CK, SOC2, ISO27001, ISO27002, Zero Trust, ZTNA

Security Engineering: DevSecOps, SSDLC, SDLC, Threat Modelling, Security Automation

GRC & Risk Management: Risk Assessment, Security Audit, Compliance, Threat Analysis

Languages: Java, Python, SQL, JavaScript, HTML/CSS

Security Tools: Kali Linux, Wireshark, Nmap, Splunk, Metasploit, Burpsuite, IDA Pro

Soft Skills: Problem-solving, Communication, Team-work

PROJECTS

SIEM Integration with AI Chatbot - Security Automation

2025

Python, Microsoft Sentinel, Azure Logic Apps

- Engineered automated incident enrichment workflows integrating Microsoft Sentinel with ChatGPT via Azure Logic Apps, reducing incident response time by 50%
- Innovated log correlation and incident triage pipelines, strengthening system monitoring and reliability with AI-powered automation
- Developed detailed analysis reporting post-incident, improving threat detection accuracy by 70% and operational efficiency by 25%

Email Monitoring System - Real-time Phishing Detection Tool

2024

Python, NLP, Machine Learning

- Developed real-time monitoring tool for phishing and policy violations using Python with NLP techniques and ensemble machine learning models
- Implemented robust email content analysis and threat classification for comprehensive security monitoring
- Achieved 97% accuracy in phishing detection, reducing manual efforts by 60% and improving threat response time by 40%

WORK EXPERIENCE

Cybersecurity Intern, Redynox

2025

- Performed network security analysis using Wireshark, identifying suspicious activities and potential threats
- Executed web application vulnerability assessments using OWASP ZAP, discovering SQL Injection, XSS, and CSRF vulnerabilities
- Implemented security measures including firewall configurations and network encryption protocols

CERTIFICATIONS

IBM Professional Cybersecurity Analyst, SOC Fundamentals (2025) — IBM Gen AI (2024) — NPTEL Cyber Physical Systems (2023) — Google Computer Networking (2022)

ACHIEVEMENTS

- Featured on Times Square Billboard (Aug 2025) – Topmate's Global Creator Recognition
- Ranked in Top 3% globally on TryHackMe — Participated in American Express Girl Hackathon 2024
- Successfully investigated first security incident with comprehensive threat analysis in LetsDefend Security Lab
