PROFILE SUMMARY

Aspiring Security Engineer with specialisation in cybersecurity, 3+ years of hands-on practice in secure software development, networking, and cloud platforms (AWS, Azure). Skilled in building scalable, reliable, and secure systems with a problem-solving and security-first approach.

EDUCATION

Vellore Institute of Technology

B.Tech in CSE (Specialization: Cyber Security and Digital Forensics)

2022 – 2026

CGPA: 8.58/10

SKILLS

Technical Skills: Network Security, Vulnerability Assessment, Penetration Testing, Web Application Security, Incident Response, Threat Hunting, Cloud Security, Data Analysis

Languages: Java, Python (Scripting), MySQL

Tools/Frameworks: Linux, VMWare, Wireshark, Nmap, Nessus, Metasploit, Burp Suite, Power BI

Concepts: OWASP Top 10, TCP/IP, Firewalls, VPNs, IDS/IPS, Access Control, Generative AI/ML

Soft Skills: Analytical Problem-solving, Team Collaboration, Communication, Adaptability

PROJECT EXPERIENCE

SIEM Integration with AI Chatbot | *Security Automation*

2025

- Integrated Microsoft Sentinel with ChatGPT via Logic Apps to automate incident response and enrichment using AI-driven contextual insights.
- Applied AI/ML models for anomaly detection and threat analysis, enhancing detection and triage capabilities.
- Reduced incident response time by 50% and improved detection accuracy through automated AI-powered security monitoring.

Email Monitoring System | *Real-time Phishing Detection Tool*

2024

- Developed real-time phishing detection tool using Python with NLP and ensemble ML models.
- Applied ML techniques for classification, anomaly detection, and pattern recognition in cybersecurity.
- Achieved 97% accuracy in phishing detection and reduced manual analysis effort by 60%.

Microsoft Sentinel (Azure SIEM) | *Real-time Cloud Threat Monitoring*

2025

- Deployed Microsoft Sentinel for real-time cloud threat monitoring with Microsoft Entra ID logs and custom analytics rules.
- Gained hands-on experience in SIEM data flow, incident lifecycle, dashboard visualization, and SOC operations.
- Implemented 15+ security event monitors with real-time alerting and proactive threat hunting.

CERTIFICATIONS & TRAINING

Professional Certifications: IBM Cybersecurity Analyst | SOC Fundamentals | IBM Gen AI

Specialized Training: CEH Ethical Hacker | AWS Cloud Practitioner | CompTIA Security+ (SY0-701)

Additional: Bits and Bytes of Computer Networking | Cyber Physical Systems (NPTEL)

ACHIEVEMENTS & RECOGNITION

Times Square Billboard (New York): Global Creator Recognition, 2025

AmexGirl Hackathon 2024: Selected for Cybersecurity Innovation Challenge

TryHackMe: Top 3% globally in penetration testing and vulnerability assessment

Self-Built Lab: 3+ years of hands-on experience in threat hunting and network security simulation
